

Counting – How many?

Which picture has five foxes?

To Educators/ Parents:

- **Activity A.1- Hands-on activities:**
 - **Gather items to count like food items- candies, cereals, chips, strawberries, small marshmallows, etc.**

- **Count non-food items like feathers, leaves, etc.**

- **NOTE: Avoid hard candies, and dangerous items that are choking hazards!**

- **Activity A.2- Hands-on activities:**

- **A.2a – Get stack of cue cards to make the**

number cards; show the children each number on the card and see if they recognize the number.

- **A.2b – Walk around public places like the malls and buildings where there are numbers. See if they can point out the numbers.**
- **A.2c – Show various product labels with numbers on them. Do they recognize the numbers?**
- **A.2d – Count people, animals and other living things.**
- **A.2e – Roll a large dice and see if the children can recognize the number of dots.**
